

TASeMAP

MOBILE INSTRUCTIONS (iOS + Google):

1. Loading TASeMAP for the first time:

1. Open the document you received (in your email), on your phone or tablet (whichever device you will use).
2. Click on the Open TASeMAP link within the document.
3. **If the link opens in Google Maps you have installed TASeMAP on your Google Account.**
4. If the link opens in your browser (e.g. Chrome or Safari), click the button on the top right, and follow the prompts which will then open the map in Google Maps.
 - Once opened in Google Maps, TASeMAP should remain attached to your Google Account.

2. Accessing TASeMAP after opening first time:

1. Open the Google Maps App and click **Saved**.
2. Scroll to the bottom of the page and click **Maps** on the bottom right.
3. Select **TASeMAP**.
4. Your map is now ready to use!
